This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups. ⁴HP recommends that the number of pages per month of imaged output be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period. ⁵While scanning to file from ADF. Exact speed varies depending on the system configuration and document complexity. ⁶From flatbed, exact speed varies depending on the system configuration and document complexity. ⁷Based on standard ITU-T test image #1 at standard resolution. More complicated pages or higher resolution will take longer and use more memory. ⁸Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages.
